Subject: EPA R8 WQS States & Tribes Meeting Follow-up

State & Tribal Partners,

Thank you for your time participating in the sessions and sharing your knowledge with others. As a reminder, the recordings are available in the Teams chat for each session if you missed one or want to review a presentation.

While it is fresh, I welcome your feedback on what you liked about this year and what you would like to see different next year. We did not have the State/Tribal presentations we normally have had in the past, so let me know if that was just a workload issue this year or if there is anything we can do as part of the planning process to facilitate that next year.

Also, I've attached the notes from our joint session with NPDES this afternoon (thanks Stephanie!).

Tina asked me to share this info as well:

EPA is currently working on a number of nutrient reduction funding and financing projects using the SRF programs, private sector funds and co-funding. One is a series of workshops focused on specific areas: HABs funding, co-funding projects with USDA and EPA programs, and funding stormwater projects for nutrient reduction. Information about these funding opportunities are available at the following websites:

- https://www.zoomgov.com/webinar/register/WN_B7J5tY92RtGVlh2QxvqDrg
- https://www.zoomgov.com/webinar/register/WN_UlqGtK9UR1S3hkvF2tKT_Q

Finally, as a reminder the final session on Thursday, 9-11 am is for States and Tribes only. I've edited the room settings so that you get automatically let in (no waiting room), but please chat or call me if you need technical assistance with Teams.

Best wishes,
Tonya
